Attention: Honourable Mayor, Cllr M.E Tsoene
Mantsopa Local Municipality

SUBMISSION OF THE DRAFT 2018/2019 SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN

The above-mentioned subject bears reference.

In terms of the **Local Government: Section 53(1) (c) of the Municipal Finance Management Act, 56 of 2003**, the Mayor of a municipality must-

(c) take all reasonable steps to ensure-

(ii) That the Municipality's Service Delivery & Budget Implementation Plan is approved by the Mayor within 28 days after the approval of the budget; and

(iii) That the Annual Performance Agreements as required in terms of Section 57(1)(b) of the Municipal Systems Act, 32 of 2000 for the Municipal Manager and all Senior Managers-

(aa) comply with this Act in order to promote sound Financial Management;

(bb) are linked to measurable performance objectives approved with the budget and to the service delivery and budget implementation plan.

In light of the above-mentioned legislative prescripts, I hereby submit the draft 2018/2019 Service Delivery and Budget Implementation Plan and my Annual Performance Agreement for the approval of the Mayor as prescribed.

Your contribution is always valued, _____

T.P MASEJANE
MUNICIPAL MANAGER

Mayors Foreword

A properly formulated SDBIP ensures that appropriate information is circulated internally and externally for purposes of monitoring the execution of the budget, performance and achievement of the strategic objectives set by council. SDBIP enables the Municipal Manager to monitor the performance of senior managers, the Mayor to monitor the performance of the Municipal Manager, and for the community to monitor the performance of the municipality.

This enables, in turn, the Mayor and the Municipal Manager to be pro-active and take remedial steps in the event of poor performance. The SDBIP aims to ensure that managers are problem-solvers, who routinely look out for unanticipated problems and resolve them as soon as possible.

The SDBIP should, therefore, determine (and be consistent with) the performance agreements between the Mayor and the Municipal Manager and that of the Municipal Manager and managers directly accountable to the Municipal Manager, hence determined at the start of every financial year and approved by the Mayor.

It is the output and goals made public in the SDBIP that will be used to measure performance on a quarterly basis during the financial year. It must be noted that such in-year monitoring is meant to be a light form of monitoring. The council should reserve its oversight role over performance at the end of the financial year, when the mayor tables the annual report of the municipality. The in-year monitoring is designed to pick up major problems only, and aimed at ensuring that the Mayor and Municipal Manager are taking corrective steps when any unanticipated problems arise.

The SDBIP serves a critical role to focus both the administration and council on outputs by providing clarity of service delivery expectations, expenditure and revenue requirements, service delivery targets and performance indicators. The Municipal Manager is encouraged to develop the SDBIP concept further so that it is meaningful and useful to managers.

Whilst the budget sets yearly service delivery and budget targets (revenue and expenditure per vote), it is imperative that in-year mechanisms are able to measure performance and progress on a continuous basis. Hence, the end-of-year targets must be based on quarterly and monthly targets, and the Municipal Manager must ensure that the budget is built around quarterly and monthly information.

Being a start-of-year planning and target tool, the SDBIP gives meaning to both in-year reporting in terms of section 71 (monthly reporting), section 72 (mid-year report) and Section 121 (end-of-year annual reports).

The SDBIP is essentially the management and implementation tool which sets in-year information, such as quarterly service delivery and monthly budget targets, and links each service delivery to the budget of the municipality, thus providing credible management information and a detailed plan for how the municipality will provide such services and the inputs and financial resources to be used.

The 2018/19 SDBIP indicates the responsibilities and outputs for each of the Senior Managers (Directors) in the top management team, the inputs to be used, and the time deadlines for each output.

The 2018/19 SDBIP will, therefore, determine the performance agreements of the Municipal Manager and Managers directly accountable to the Municipal Manager, including the outputs and deadlines for which they will be held accountable. This SDBIP should also provide all expenditure information (for capital projects and services) per municipal ward, so that each output can be broken down per ward, where this is possible, to support Ward Councillors in Service Delivery information.

It is in the light of the above-mentioned factors that I, **Cllr Mamsie Tsoene**, as the Mayor, hereby approve the 2018/2019 Service Delivery & Budget Implementation Plan (SDBIP) in terms of **Section 53 (1) (c) (ii) of the Local Government: Municipal Finance Management Act, 56 of 2003**.

Mantsopa Local Municipality
Free State Province

2. Introduction

The purpose of this document is to present the Service Delivery and Budget Implementation Plan (SDBIP) of Mantsopa Local Municipality for the 2016/17 financial year. The development, implementation and monitoring of a SDBIP is a requirement of the Municipal Finance Management Act No. 56 of 2003 (MFMA).

The SDBIP is a detailed one year plan of the municipality that gives effect to the Integrated Development Plan (IDP) and the budget of the municipality. The SDBIP is a management plan for implementing the IDP through the approved budget. It is an expression of the objectives of municipality, in quantifiable outcomes that will be implemented for the financial year. It includes the service delivery targets for each quarter and facilitates oversight over financial and nonfinancial performance of the municipality.

The SDBIP 2018/2019 will not only ensure appropriate monitoring in the execution of the municipal budget and processes involved in the allocations of budgets to achieve key strategic priorities as set by the municipal IDP, but will also serve as the kernel of annual performance contracts for senior management and provide a foundation for the overall annual and quarterly organization performance for the 2018/2019 financial year.

The SDBIP also assists the council and the community in their respective oversight responsibilities since it serves as an implementation and monitoring tool.

- **Part 1: SDBIP Overview**

Legislative Framework

Section 1 of the MFMA defines the SDBIP as a detailed plan approved by the mayor of a municipality in terms of section 53(1) (c) (ii) for implementing the municipality's delivery of services and its annual budget and which must indicate:

- a) Projections for each month of:-
 - i. Revenue to be collected, by source; and
 - ii. Operational and capital expenditure by, vote
- b) Service delivery targets and performance indicators for each quarter; and
- c) Any other matters that may be prescribed, and includes any revisions of such plan by the mayor in terms of section 54(1) (c).

The MFMA requires that municipalities develop SDBIP as a strategic financial management tool to ensure that budgetary decisions that are adopted by municipalities for the financial year are aligned with their IDP strategy. In terms of Section 53 (1) (c) (ii) of the MFMA, the SDBIP must be approved by the Mayor of a municipality within 28 days of the approval of the budget.

Components of the SDBIP

- Monthly Projections of Revenue to be Collected for each Source
- Monthly Projections of Expenditure and Revenue for each Vote
- Quarterly projections of Service Delivery Targets and Performance Indicators for each Vote
- Detailed Capital Budget Broken Down by Ward over 3 Years

Monthly Projections of Revenue to be collected for each Source

The failure to collect its revenue as budgeted will severely impact on the municipal ability to provide services to the community. The Municipality, therefore, has to institute measures to achieve its monthly revenue targets for each source. These measures will enable the municipality to assess its cash flow on a monthly basis with a view to undertaking contingency plans should there be a cash flow shortage or alternatively invest surplus cash. Furthermore, the effectiveness of credit control policies and procedures can be monitored with appropriate action taken if considered necessary.

Monthly Projections of Expenditure and Revenue for each Vote

The monthly projection of revenue and expenditure per vote relate to the cash paid and reconciles with the cash flow statement adopted with the budget. The focus under this component is a monthly projection per vote in addition to projections by source. When reviewing budget projections against actual, it is useful to consider revenue and expenditure per vote in order to gain a more complete picture of budget projections against actuals.

Quarterly Projections of Service Delivery Targets and Performance Indicators for each Vote

This component of the SDBIP requires non-financial measurable performance objectives in the form of service delivery targets and other indicators of performance. The focus is on outputs rather than inputs. Service delivery targets relate to the level and standard of service being provided to the community and include the addressing of backlogs in basic services. The approach encouraged by National Treasury's MFMA Circular No. 13 is the utilization of scorecards to monitor service delivery, which Mantsopa Local Municipality has adopted.

GENERAL KEY PERFORMANCE INDICATORS AS PRESCRIBED IN TERMS OF THE LOCAL GOVERNMENT: MUNICIPAL PLANNING AND PERFORMANCE MANAGEMENT REGULATIONS, 2001

In formulating the key performance indicators in the IDP, Budget & SDBIP for the period ending 30 June 2019, the municipality was guided by the General Key Performance Indicators as prescribed in terms of the above-mentioned regulations. These General Key Performance Indicators are incorporated in the performance information to provide proper context and implementation as follows:

KPA: Good Governance & Public Participation

KPA: Local Economic Development

KPA: Financial Viability and Management

KPA: Transformation and Institutional Development

KPA: Basic Services- Community Development and Social Cohesion

All General Key Performance Indicators, as prescribed in terms of Section 43 of the Act, are listed below for ease of reference:

- (a) The percentage of households with access to basic level of water, sanitation, electricity and solid waste removal;
- (b) the percentage of households earning less than R3500 per month with access to free basic services;
- (c) the percentage of a municipality's capital budget actually spent on capital projects identified for a particular financial year in terms of the municipality's integrated development plan;
- (d) the number of jobs created through municipality's local economic development initiatives including capital reports;
- (e) the number of people from employment equity target groups employed in the three highest levels of management in compliance with a municipality's approved employment equity plan;
- (f) the percentage of a municipality's budget actually spend on implementing its workplace skills plan; and
- (g) financial viability as expected by the following ratios:

(i) $A = \frac{B - C}{D}$

Where –

“A” represents debt coverage

“B” represents total revenue received

“C” represents operating grants

“D” represents debts service payments (i.e. interest + redemption)

(ii) $A = \frac{B}{C}$

Where –

“A” represents outstanding services debtors to revenue

“B” represents total outstanding service debtors

“C” represents annual revenue actually received for services;

(iii) $A = \frac{B+C}{D}$

“A” represents cost average

“B” represents all available cash at a particular time

“C” represents investments

“D” represents monthly fixed operating expenditure

Detailed Capital Budget over Three Years

Information detailing infrastructural projects containing project description and anticipated capital costs over the three year period. A summary of capital projects per the IDP plan is available on Council's website: www.mantsopa.fs.gov.za .
The procurement process is an important component to ensure effective and timely infrastructure / capital service delivery

Strategic Direction and Planning Cycle

A seamless process between the Long Term Development Framework (LTDF), IDP, SDBIP, Performance Management System (PMS) and Annual Report would create an enabling environment for the municipality to achieve its deliverables

The Service Delivery and Budget Implementation Plan Concept

SDBIP Monitoring, Reporting and Revision

In-year Reports	Revision	Annual Reports
<p>Monthly Reports must be submitted by Municipal Manager to the Mayor (Section 71 of the MFMA)</p> <p>Quarterly reports submitted by the Mayor to council (Section 52 of the MFMA)</p> <p>Mid-year budget and performance assessment reports submitted by the MM to the Mayor (72 of the MFMA)</p>	<p>Any revision to the SDBIP services delivery targets and performance indicators may only be made with approval of the council following the adjustment budget (section 54 of the MFMA)</p>	<p>The annual report of the Municipality must include an assessment of the performance against measurable objectives and the approved SDBIP (Section 121 of the MFMA)</p>
